POSITION OF RESPONSIBILITY

Sponsorship Cohead - ISTE-RAIT

Hospitality Cohead - ISTE-RAIT

AWARDS RECEIVED

1st Runner ups in NMMC Swachh Innovative Technology Challenge 2022

ABOUT

A curious and resilient enthusiast, who is ready to take up challenges and is an ardent seeker of learning opportunities.

PROJECTS

Job Dhundo.com

- This is a Python-Django project. It is a job portal site having candidate registration, company login registration, and multiple companies can post their job openings on which a candidate can apply.
- Technologies: Python, Django, MySQL, HTML, CSS, and Bootstrap Framework.

Agriculture Production Optimization

- Built a Machine Learning Model by the virtue of which we can help farmers, optimize the agricultural production because this predictive model will help them understand that for a particular soil & given climatic condition, which crop will be best suitable for the harvest.
- Tools used: Python & Jupyter Notebook
- Libraries used: Numpy, Pandas, Seaborn, Matplotlib, ipywidgets, and sklearn.
- ML Algorithms used: Clustering Analysis and Logistic Regression

Covid-19 Tracker Website

- It was an API-based project. It showed the real-time assessment of increasing patients, totally recovered, and total deaths till that time of different countries and all Indian states. Also, the website makes readers aware of Covid-19. The site has a contact form through which they can share their concerns regarding covid.
- Technologies: API, PHP, MySQL, HTML, CSS, and Bootstrap Framework.
